

TAKE A DIFFERENT APPROACH TO ENVIRONMENTAL HEALTH AND IMMUNISATION

We understand that Councils are under pressure to review their existing services and find ways to maintain high service standards to the community with lower budgets and less resources.

Delivering better, more efficient and innovative services to the community means that Councils cannot maintain the status quo. Looking for a reliable and experienced organisation that can meet and exceed these expectations?

Meet Kernow.

Kernow has provided Environmental Health and Immunisation services to Councils for over 20 years - we are an innovative and proven way of delivering Council's core services of Environmental Health and Immunisation.

Environmental Health and
Immunisation Services

Environmental Health only /
Immunisation only

Shared Services

Domestic Wastewater expertise

RIAMS (Regulatory Information and
Management System) to Councils
www.riamsau.org

Specific, outcome based, assessed
training programs (Avonsya Regulatory
Training) www.avonsya.com.au

Service Reviews/Audits &
Workforce Planning

Management Plans and Policies
(DWMP, Food Safety, EM, Pandemic)

Short Term Contracting (2 weeks to
2+years)

Reporting and Data System set up
and implementation

IF THE FOCUS OF YOUR COUNCIL IS ON:

- Improving services;
- Reducing costs; and
- Exploring delivery options (standalone,
shared services, hybrid (in-house/part-contracted))
